REPORT OF THE SCHOOL SUPERINTENDENT

To the School Board and Citizens of Hampstead:

It gives me pleasure to submit my first annual report of the Schools of Hampstead.

The school year begins July 1 and ends June 30. The year with which this report deals ended in 1927, and as I took up the work in March my report will be limited in some respects. I have found the schools in good condition and have tried to continue the work so well begun by your former Superintendent.

There were 169 different pupils enrolled in the schools last year. This is an increase of 8 over the preceding year. The attendance averaged 97.1 per cent of the membership. The average for the State for this period was 94.57.

No one realizes better than I that a Superintendent's first year in a district should be a time of getting acquainted, rather than a period of radical changes. With this in mind, I have tried to become familiar with matters pertaining to schools and to follow as closely as possible the plans already worked out.

Various standardized tests have been used to check school progress. These tests show that our schools as a whole are up to the standard attainment of schools in similar communities over the country.

The fundamental processes—reading, arithmetic, spelling and writing have been thoroughly taught and results checked by means of tests.

The general aim of education is to train all pupils in those qualities of life and character which will make them good and efficient citizens in the community, State and nation. The objectives of education in a democracy have been summarized by a committee of American teachers under seven headings:

- 1. Command of Fundamental Processes.
- 2. Health.
- 3. Worthy Home Membership.
- 4. Training for Vocation.
- 5. Training for Citizenship.
- 6. Worthy use of Leisure.
- 7. Ethical Character.

The teachers have cooperated with the Superintendent in an attempt in unifying the work of the schools to accomplish these objectives. It is our purpose to make our educational activities a means of achieving these purposes. For each individual pupil the work of education may be considered as directed toward developing purpose and personality for the good of the pupil and the society in which he lives. Thus we may hope that our school work will result in happy, serviceable lives.

The supervisory activities have been expended in class-room visits, followed up by interviews, personal conferences and frequent school inspections. The two most important steps in improving schools are to improve the teaching and increase the actual attendance.

As in past years, Mrs. Eva Thompson, Supervisor of Music, Miss Helen Thomas, School Nurse and Mr. Arthur Davies Headmaster of High School have sent reports on their special work. These reports are worthy of careful attention.

Parents should take notice of reports sent home by our School Nurse, informing them of physical defects, and have these defects corrected. No pupil can do the mental work of the school properly if physically handicapped.

For the teacher, the School Board and myself, we express the common desire that a large number of parents and friends visit the schools. If parents will come to see their children at work, what they are doing, what they are given to do with and how their work is directed, it will give them first hand information concerning our schools.

In closing I wish to express my appreciation of the courtesy and cooperation of the School Board, the Teachers and the Community.

Respectfully submitted WILLIAM J. NELSON, Superintendent.

THE HIGH SCHOOL

The staff of teachers during the period extending from the month of January to the month of June included Arthur Robert Davies, Headmaster, Everton H. Parkinson, First Assistant; Martha A. Weed; Elizabeth Bylow. Miss Bylow served also as Principal of the Junior High School.

The staff of teachers serving from September to January of the present year included the same members with the exception of Martha Weed who was succeeded by Marjorie H. Gale.

School activities for the period ending with Commencement comprised the regular academic work varied by various social functions and outings for the pupils of both Junior and Senior schools.

School athletics included a very successful season for our High School base-ball team. Games were arranged with a half dozen teams of other High Schools in this state and Massachusetts.

The Senior Play was a pronounced success-artistically and financially the Dramatic Club presenting most creditably Booth Tarkingtons popular play—SEVENTEEN.

Commencement proved to be an occasion long to be remembered. The graduating class numbered among its members pupils of unusual ability thus assuring a varied and pleasing Commencement program of very high order. Class day exercises were merged with the usual program.

The graduating class consisted of the following members:

Esther Darling, Ruth Davis, Ruth Goddard, Elizabeth Little, Howard Goldsmith, Charles Palmer. Eunice True, Barbara Woodard. Of this number two have entered post-secondary schools. Miss Little is at the Boston Conservatory of Music; Miss Darling has entered the Nurses Training School at the Rhode Island State Hospital. Charles Palmer is taking post-graduate work in our High School; Miss True is pursuing an additional period of study at Pinkerton Academy and Miss Woodard is specializing in Music. Howard Goldsmith is successfully engaged in orchestral work.

The September term opened with an enrollment of thirty-five members in the Senior Department and twenty-four members of the Junior High School.

Work is progressing steadily in both branches of

the High School. Teachers and pupils are working harmoniously for the best results.

Among the school activities of the present school year a new departure, musically and dramatically was marked by the staging of an Operetta-entitled SCHOOL DAYS. The Operetta received popular patronage while the Athletic Club enjoyed a substantial increase in funds for the season.

We wish to express our sincere appreciation of the untiring service of the School Board on our behalf and of the sympathetic and constructive helpfulness of our Superintendent, William J. Nelson.

ARTHUR ROBERT DAVIES, Headmaster.

To the Superintendent and School Board of Hamp-stead:

I hereby submit the 1927 report of the work in music.

The text books are by Ginn and Co., a revised and greatly improved edition of the New Educational Music Course. Introductory Music is being used for grades two and three, where the children begin to read notes and learn key and time signatures. Intermediate Music furnishes bright and instructive material for grades four, five and six. The songs in this book are written for one, two and three-part chorus work. The boys and girls in these grades are working on a music memory test consisting of ten selections with the name of the composer.

On January 27, the High School presented the Operetta College Days by May Hewes Dodge and John Wilson Dodge. The cast consisted of twelve characters, other members of the school acting as chorus. Commendable solo work was done by both boys and girls. The hall was filled and the audience was generously appreciative of the young people's

efforts. The proceeds were given to the athletic association.

The end of the year finds me as always, grateful to the teachers on whose assistance I rely to such a great extent. I wish to thank the superintendent and school board for their interest and cooperation.

Respectfully submitted EVA W. THOMPSON.
